

RADIOPROTECTION CERTIFICATE

Xenocs herewith certifies that, the X-ray beam delivery system, so called GeniX, is compliant with French Laws R1333-43 / R231-84 and European norms EURATOM 96/29 for radiation safety.

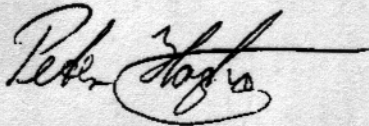

The GeniX has been tested by an independent certified organism, ALGADE, in this respect.

The equivalent dose at 100 mm from every point of the system was measured **lower than 1 μ Sv/h**. Full test report can be communicated at customer request.

The present certificate is only valid if the user does not dismantle or disconnect any safety parts (such as but not limited to, cover, shutter...) nor modified the GeniX without prior written approval from Xenocs.

Grenoble, November 5, 2010

For Xenocs,
Peter HOGHOJ
CEO

Pascal BOULEE
Product Manager
